WHAT ABAQ IS

# The PRO digital accountancy for the self-employed

We're the PRO digital accountancy for the self-employed. Our tax platform keeps your books, prepares your taxes and handles your dealings with the Spanish Tax Agency, and our PRO Accountant Team advises you by chat or email. So you save time and money, and your taxes are always up to date.

### No commitment

You can leave Abaq whenever you like: let us know before the next quarter starts and it won't renew.

### Self-employed registration included

With your first fee we register you with the Tax Agency and Social Security, at no extra cost.

### Nothing is filed without you

You review every return in the app before we file it with your approval.

HOW IT WORKS

# Your taxes up to date in three steps

From your invoice to the Tax Agency's filing receipt, always with your approval.

1

## Upload your invoices and receipts

Take a photo with the app, forward us the invoices you get by email or share them from Google Drive. If you invoice with FacturaDirecta, connect your account.

2

## We record them instantly

Abaq reads each document and records it without you typing a thing. Your accounting books and your tax forecast update with every invoice.

3

## We file your taxes

We prepare your returns, you review them in the app and we file them with the Tax Agency, with your approval, on time. The filing receipt stays in the app.

WHAT WE DO

# Everything you need as a self-employed professional

From your registration to your income tax return, with the same team.

### Self-employed registration and flat rate

We register you with the Tax Agency and Social Security and apply for your flat rate.

### Switching accountants

Move to Abaq whenever you like. We talk to your previous accountant.

### Bookkeeping and taxes

Your invoices, recorded straight away. Your taxes, filed on time.

### Selling to the EU and abroad

We handle your ROI registration, form 349 and the One-Stop Shop.

### If the Tax Agency writes to you

We explain what the Tax Agency is asking for and help you reply.

### Income tax return

We prepare and file your income tax return.

### Your PRO Accountant Team

Unlimited questions by chat or email, included in your fee.

### FacturaDirecta for free

Invoice for free and your invoices reach Abaq on their own.

PEACE OF MIND

# Your taxes, in good hands

We're an accountancy firm: we file your taxes and register you with the Tax Agency and Social Security, always with your approval.

### Nothing is filed without you

You review every return in the app before we file it with your approval.

### On time, every quarter

With your quarter paid, we file your taxes before the deadline.

### If the Tax Agency writes to you, we explain it

A PRO Accountant explains what the letter asks for, the deadline and what you can do.

### Checked by a PRO Accountant

Abaq records your invoices instantly and a PRO Accountant checks everything is right before filing.

WHO HELPS YOU

# Your PRO Accountant Team, whenever you need them

## Unlimited questions

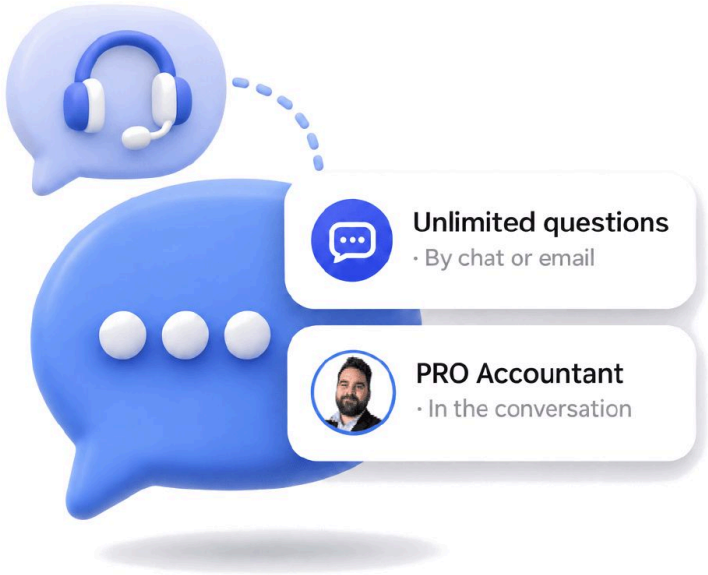

Ask anything you need about your bookkeeping and your taxes, at no extra cost.

## By chat or email

Write to us from the app or the website. Your conversations are saved so you can come back to them whenever you like.

## With your data at hand

A PRO Accountant sees your invoices, your taxes and what we've filed for you. And if something doesn't add up when we review your books, we get in touch.

PRICE

# One simple price

A single fee covering your registration, your bookkeeping and all your taxes. No commitment.

SINGLE FEE

## €39 / month

**Quarterly payment: €117. VAT not included**

The subscription costs €117 per tax quarter. It renews at the start of each tax quarter and covers the self-employed tax returns of the quarter paid. Tax quarters are not prorated. The personal income tax return is not included in the quarterly fee.

**Includes**

- Your self-employed registration with the Tax Agency and Social Security
- All your quarterly and annual self-employed tax returns
- Accounting and tax advice
- Unlimited questions to our PRO Accountant Team
- Automatic digitisation of your invoices and receipts
- Professional software to create your invoices online
- All your official accounting books
- Upload and manage your expenses effortlessly
- Real-time forecast of your taxes
- Mobile app for Android and iOS

**Does not include**

- Personal income tax return (separate service)
- Procedures unrelated to the taxes or accounting of your business: opening premises, applying for grants, buying or selling vehicles, etc.
